

Ordering a Civic Address Sign for Vacant Land

Contact the Township Office to request a new civic address number, with as much detail as possible (sketch and/or Roll #) for the Township official to identify the property.

An approved entrance permit must be received by the Township prior to the 911 number being issued and ordered.

The entrance must be staked out and approved by the appropriate Public Works Department (Township or County – Fees May apply).

Cost of sign and installation \$64.50

Entrance Application – Associated Costs

Farm 911 and the Emily Project promote that all farm field entrances be maintained so that should there be an incident, emergency vehicles are able to use the entrance. Furthermore, signs should be visible from all directions, so that first responders are able to clearly identify the number.
